CULTURE SUGGESTIONS

Work soil at least 18 inches deep; use liberal amount of well decayed manure. Cow manure is best. Use sprinkling of lime and bone; Soak seed in water for about 24 hours or until swelled up and then plant about 1½ to 2 inches deep in a well firmed soil that is good and moist, but not sticky. (DO NOT SOAK WHITE SEEDED VARIETIES).

Peas will not do well in too loose a soil. Plant one inch apart and later thin to about six inches. Do not water until seeds have begun to germinate. After germination has taken place give a good soaking. **MOST FAILURES ARE CAUSED BY WATERING BEFORE SEED HAS SPROUTED.** If weather is hot use some kind of shading. Protect young plants from birds outdoors. Look for Green Aphids regularly as this insect is the worst enemy. Spraying with nicotine, one part nicotine to 400 parts water with spray gun is best. There are also many other good insecticides which are excellent for the control of Aphids. Give young plants substantial supports in order that they may climb and produce good flowers. Poor flowers with crooked stems are worthless. Liquid manure feeding after they come in bloom will lengthen the flowering period and produce better flowers. Pick all flowers as this also lengthens the flowering period. Always keep the surface earth loose and never allow a crust to form. If grown indoors keep ventilators open to keep the air as dry as possible. A house that is kept damp and sultry will cause too much growth and the sweet peas will not bloom as soon as they should, and then will begin to bloom too high up. Early sweet peas usually bloom from 75 to 100 days after seed is planted. Leading commercial colors are in order named: Pink, Lavender, White, Salmon, Orange, Blue, Red. Other colors should be used in lesser quantities. One ounce of Sweet Pea Seed will plant about 25 feet of row.

A WORD TO OUR GROWER FRIENDS

Looking over our files on our Tenth Anniversary we are happy to see hundreds of our first customers ordering our seeds year after year. We are proud of the fact that our seeds are giving such satisfaction and it also pleases us to know by the many letters we receive unsolicited what growers think of our varieties.

GROWERS THERE IS A REASON. Good seed, excellent varieties, and prompt attention to orders. Still we are not satisfied and are striving for still better varieties. Each year we are introducing better varieties which we must make room for in our price list as the older varieties are replaced by better ones. Today we are safe in saying that our varieties of Early Flowering Sweet Peas are the best in the world and as long as there are sweet peas to improve, we will improve with them. Here are a few words from some of our customers and what they think of our seeds. Originals with names and addresses are in our files.

Juneau, Alaska

Dear Sirs: From the 1st of May until the 15th of September we had about 25 days of sunshine, all the rest rain; and sweet peas want sunshine, don't like too much rain. The ones that had the chance to bloom were fine. On my place the California Butterfly and Mrs. Reddick grew 6 feet high. Duplex 5 feet but more blossoms. Stems averaged 12 inches. Anyway I have the satisfaction to tell you that your seed was the best because it was the only sweet peas that bloomed in this country, all the others were totally a failure.

—W. E. S.

Independence, Kansas.

Gentlemen: Last year our sweet peas grown were very fine. Best we ever had. —Wm. H. Marrero, La.

Dear Sirs: I have grown your seeds for the past 9 years. Your new 60 day variety is the best yet for this locality owing to our long summer; Orange Supreme is the best pea I ever grew. Thanks.

—J. J. B.

Beloit, Kans.

Dear Sirs: I bought your seed last year and was well satisfied.

—C. D. H.

Aschaffenburg, Germany.

Dear Sirs: Your sweet peas were again very fine, especially the Pink Beauty with the marvellous stems.

—G. R.

Pawhuska, Okla.

Gentlemen: We have used your seeds for years and have always had wonderful luck with them. —R. F. Forrest City, Ark.

Gentlemen: Am cutting from seed planted in Sept, Well pleased with your selections.

—R. Greenhouses

Palo Alto, Calif.

Dear Sirs: Just a line to thank you for the Mrs. Reddick. I had in mind to plant some Mrs. Reddick later on. This flower is very beautiful and has a distinct artistic value.

—J. L. U.

Beaumont, Texas.

Gentlemen: Year after year I grow sweet peas from your seed. They never fail me. —MRS. A. W. La Jolla, Calif.

Dear Sirs. I have never grown more beautiful sweet peas than from the seeds purchased from you and recommend them continually to friends.

—MRS. H. J. H.

Again we wish to thank you for past favors and trust that we may again be of service to you with our choice seeds, we are,

Cordially yours,

WILLIAM ZVOLANEK & CO.

William Zvolanek.

P. S.: If you are not growing any of the items we list kindly pass our list to brother growers who might be interested in same. Thank you.
